

## Aggie Lawn Guest Access Wireless Connectivity Procedure

*Guests need to have their wireless card installed and working before following the instructions below.*

The Guest Access security settings are changed on a regular basis and is of two parts; the WEP key (network key) and the network registration login ID and password. Guests must work through a faculty or staff sponsor to use Guest Access. Faculty and staff hosting guests can contact Aggie Tech Support at **334-7195** to obtain the current credentials. Currently, Guest Access is not available campus wide.

Internet connectivity is limited to the following protocols: **http, https, ssh, ftp, and vpn.**

Guests are bound by the Wireless Security Standard, the Network Security Standard, and applicable policies, at <http://www.ncat.edu/~cit/policies/>

**WEP Key: 2233445566**  
**Login ID: lwnguest**  
**Password: lwng7499**

### WEP Configuration using the built in Windows XP utility.

*Details will vary with other vendor wireless utilities.*

1. Access the wireless card configuration settings.
  - a. Windows Start button  My Network Places.
  - b. View Network connections  Wireless Network Connection (right click, Properties).
  - c. Select Tab 'Wireless Networks'. 'Use Windows to configure...' should have a check mark next to it.
  - d. Push the 'Add' button.
2. Network Name (SSID) is **ncatguest**.
3. Network authentication is **Open**.
4. Data encryption is **WEP**.
5. Uncheck the box next to 'this key is provided to me automatically'.
6. The **network key** is typed in next.
7. Type the **network key** again in the **confirm network key** box.
8. Select **2** for the key index/key number.
9. Press the **OK** button.
10. Pushing the next **OK** button will establish the connection to the Access Point.

### **Network Registration and Authentication**

All network devices must have their physical address (MAC number) registered on our servers to allow network use.

1. Open your web browser to [www.ncat.edu](http://www.ncat.edu) . Unregistered devices will automatically have the registration page appear.
2. Obtain the login name and password from Aggie Tech Support and type both using lowercase letters. (Note: You will need to do this only once per device.)
3. Reboot your machine when prompted to do so.

Congratulations! You are now on the Aggie Lawn!

Contact Aggie Tech Support at **334-7195** or <http://helpdesk.ncat.edu> if you have questions.
